Private GPs are here when you need an appointment quickly.

At Kingsbridge Private Hospital we offer same-day appointments with our Private GPs. Why wait for an appointment when you can see one of our GPs today.

What happens at Kingsbridge Private Casualty?

Our Private Casualty is run by a highly experienced team of Consultants and Specialist Nurses. We aim to provide the highest level of care in a state-of-the-art facility without lengthy waiting times. It is our aim to see all patients within 30 minutes of arrival.

1. On arrival at the hospital, patients book into Private Casualty at reception and pay the £25 triage fee.
2. Patients are triaged by a Specialist Private Casualty Nurse. At triage you will be advised on what investigations, treatment or referrals would be most suitable. Patient needs are assessed individually, including process and indication of cost.
3. Patients will then be fully assessed by a Nurse Practitioner or Consultant, as appropriate.
4. Appropriate investigations required, i.e. x-rays or blood tests, will be carried out on-site along with treatments such as plastering, stitches and wound dressings.
5. Any onward referrals to specialists or ongoing treatments will be arranged for you.

Please note, H3 customers are covered at Kingsbridge Private Casualty (£25 Excess Fee applies). The hospital is also approved by the following insurance companies: Axa, Aviva, Beneden, Bupa, Pru Health and WPA. Please call your provider for further details.

The National Sports Clinic at Kingsbridge Private Hospital compliments our Private Casualty Service.

With quick access to sports medicine specialists and a comprehensive list of consultants available to treat a wide variety of sports related injuries you can rest assured The National Sports Clinic will be there to aid your rehabilitation.

What conditions can be seen at Kingsbridge Private Casualty?

At Kingsbridge Private Casualty, we are happy to see and treat both adults and children*. Please note that each case is different and some conditions may require onward referral.

✓ **We can see:**

- Sprains and Strains
- Minor Breaks and Dislocations
- Minor Burns
- Cuts and Wounds
- Minor Ear, Nose and Throat Conditions
- Sports Injuries
- Minor Head Injuries

✗ **We can't see:**

- Chest Pain
